

LAST PAGE: Works Cited

When you use other people's writings and ideas, you must give them credit for their work. The Works Cited page is an alphabetical listing of all actual sources cited in the paper.

Your Works Cited page should be a stand-alone page; it should NEVER appear on the same page as your actual essay! It is the very last page of your paper. The following example shows what your paper should look like. Refer to the descriptions of each number below the example.

The diagram shows a page layout for a Works Cited page. At the top right, the header "Finnigan 6" is positioned. A box labeled "1 inch margins" points to the top and side margins. A box labeled "1/2 inch margin on Header only" points to the header. The title "Works Cited" is centered, with a box labeled "Center the title" pointing to it. Below the title, three entries are listed, each with a box labeled "Alphabetize sources" pointing to the author's name. The first entry is: "Human Cloning: 'One shouldn't do this'." *CNN.com/HEALTH*. Cable News Network LP, LLLP., 27 December 2002. Web. 6 May 2010. <<http://archives.cnn.com/2002/HEALTH/12/27/clones.ethics.legal/index.html>>. The second entry is: "Human Cloning: The debate." *BBC News Online: Sci/Tech*. BBC News, 25 June 1999. Web. 6 May 2010. <<http://news.bbc.co.uk/2/hi/science/nature/377420.stm>>. The third entry is: Klotzko, Arlene J. "There'll never be another you." *guardian.co.uk*. The Guardian, 22 Jan. 2004. Web. 6 May 2010. <<http://www.guardian.co.uk/education/2004/jan/22/science.highereducation1>>. The fourth entry is: Strode, Tom. "Society unprepared for problems of human cloning, scholars say." *Baptist* May 2010. <<http://bpnews.net/bpnews.asp?ID=3203>>. A box labeled "Required information and format for each entry (use online format help)" points to the entries. A box labeled "Hanging Indents: First line of each entry is at the left margin; extra lines are indented 1/2". points to the first line of the third and fourth entries.

Title Your title is centered: do not create extra spaces around it, and do not use a different type or size of font. It should be one inch from the top of the page.

Spacing Double space the entire page, including the title and all entries.

Alphabetize the sources according to the author's last name (or title if there is no author).

Hanging Indents The first line of each entry is at the left margin; extra lines are indented 1/2". DO NOT NUMBER YOUR SOURCES.

Header: Continue to include your header in the upper right corner, indicating your name and the page number.

Entry Information, Punctuation, and Format The information and arrangement of the information must follow MLA formatting. Use any of the links below to help with this. The sites will only put the information for your sources in the correct order, so when you cut and paste from the web page, you will probably need to fix your font and spacing so it is correct.

Each work cited in parentheses in the research paper must be listed on the Works Cited page.

Online MLA Format Links These web sites will create an MLA style Works Cited entry for you. All you do is fill in the information you have about your source. Select the site that you like best.
